

Discover A Ryokan Experience In Thailand

Onsen @ Moncham Discover A Ryokan Experience In Thailand

As you ascend the mountain toward Moncham, surrounded by lush local life, you already know you are in for an experience second to none. Farmers tending to organic produce and school kids frolicking in the forest leave a world of hustle and bustle far behind.

Then, as if in a dream, the majestic mountain backdrop appears with an architectural oasis known as no other than Onsen @ Moncham.

Designed by national artist Krisda Rochanakorn, the retreat is modeled after the famed Katsura Imperial Villa of Kyoto. Nestled 1200 meters above sea level assuring all of clear, crisp air, the team of more than 3 associates per guest room await in culturally rich costume ready to cater to the every need of discerning guests.

For those only wishing for a short visit, the public baths rich in minerals from deep below the earth's surface promise to relax and calm. And when the time comes, all are welcome to dine in one of the ryokan's Japanese themed restaurants on both local dishes as well as the areas finest Japanese cuisine sampling a selection of hand picked sake's and premium wines.

The cool mountain air, peaceful views and sounds of nature embrace.

This is paradise.

This is Onsen @ Moncham.
